1 Tests

1.1 Test ID : 58 - verify user can view a video directly from a link

Field Label	Field Value	Field Label	Field Value
Test Name	verify user can view a video directly from a link	Type	MANUAL
Designer	alm12()	Creation Date	9/6/16
Execution Status	Passed	Subject	Youtube.

Description

1.1.1 Design Steps

Step Name	Description	Expected Result
Step 1	copy the video link	video link should be copied
Step 2	launch the web browser	web browser should be launched successfully
Step 3	click on the search box	typing in search box should be enabled
Step 4	paste the link	link should be pasted into search box
Step 5	press enter	video should be viewed

1.2 Test ID : 57 - verify user can select from allowed video quality

Field Label	Field Value	Field Label	Field Value
Test Name	verify user can select from allowed video quality	Type	MANUAL
Designer	alm12()	Creation Date	9/6/16
Execution Status	Passed	Subject	Youtube.

Description

1.2.1 Design Steps

Step Name	Description	Expected Result
Step 1	launch the browser	browser should be launched
Step 2	enter URL "https://www.youtube.com/"	youtube homepage should be viewed
Step 3	sign in with valid email address and password	sign in should be successfull
Step 4	click on the search box	typing should be enabled

Step 5	enter the keyword and click on search button or press enter	search should be completed and results should be listed
Step 6	click on the video wished to be viewed	video should be started
Step 7	click on settings icon on the video	settings options should be viewed
Step 8	click on quality	allowed video quality options should be viewed
Step 9	select from the the quality options that wished to be viewed	wished quality settings should be set

1.3 Test ID : 56 - verify user cannot upload a blank file for video

Field Label	Field Value	Field Label	Field Value
Test Name	verify user cannot upload a blank file for video	Type	MANUAL
Designer	alm12()	Creation Date	9/7/16
Execution Status	Passed	Subject	Youtube.

Description

1.3.1 Design Steps

Step Name	Description	Expected Result
Step 1	launch the browser	browser should be launched
Step 2	enter URL "https://www.youtube.com/"	youtube homepage should be viewed
Step 3	sign in with valid email address and password	sign in should be successfull
Step 4	click on create a video or post button	drop down options "upload a video" and "go live should" be viewed
Step 5	click on upload a video button	sign in page should be viewed
Step 6	tap on select file	file selection window should appear
Step 7	tap on open without selecting a file	video uploading should not be accepted

1.4 Test ID : 55 - Verify user should get auto suggestions while searching for videos in the YouTube search bar

Field Label	Field Value	Field Label	Field Value
Test Name	Verify user should get auto suggestions while searching for videos in the YouTube search	Type	MANUAL

	bar		
Designer	alm12()	Creation Date	9/7/16
Execution Status	Passed	Subject	Youtube.

Description

1.4.1 Design Steps

Step Name	Description	Expected Result
Step 1	launch the browser	browser should be launched
Step 2	enter URL "https://www.youtube.com/"	youtube homepage should be viewed
Step 3	sign in with valid email address and password	sign in should be successfull
Step 4	click on the search box	typing should be enabled
Step 5	enter keywords for the search	matching and suggested search keywords should be listed as user entering the keywords

1.5 Test ID : 54 - Verify that other attributes of video like artist name, description should also be searchable

Field Label	Field Value	Field Label	Field Value
Test Name	Verify that other attributes of video like artist name, description should also be searchable	Type	MANUAL
Designer	alm12()	Creation Date	9/7/16
Execution Status	Passed	Subject	Youtube.

Description

1.5.1 Design Steps

Step Name	Description	Expected Result
Step 1	launch the browser	browser should be launched
Step 2	enter URL "https://www.youtube.com/"	youtube homepage should be viewed
Step 3	sign in with valid email address and password	sign in should be successfull
Step 4	click on the search box	typing should be enabled
Step 5	enter attributes of video like artist name, description that wished to be searched and click on search button or press enter	search should be completed and results related to these attributes should be listed

1.6 Test ID : 53 - Verify user can replay the video once the video is complete

Field Label	Field Value	Field Label	Field Value
Test Name	Verify user can replay the video once the video is complete	Type	MANUAL
Designer	alm12()	Creation Date	9/7/16
Execution Status	Passed	Subject	Youtube.

Description

1.6.1 Design Steps

Step Name	Description	Expected Result
Step 1	launch the browser	browser should be launched
Step 2	enter URL "https://www.youtube.com/"	youtube homepage should be viewed
Step 3	sign in with valid email address and password	sign in should be successfull
Step 4	click on the search box	typing should be enabled
Step 5	enter the keyword and click on search button or press enter	search should be completed and results should be listed
Step 6	click on the video wished to be viewed	video should be started
Step 7	wait until video is finished	replay icon should be viewed instead of play icon
Step 8	click on replay icon	video should be replayed

1.7 Test ID : 52 - Verify all the video player controls- play, pause, volume, mute etc. functions as they should

Field Label	Field Value	Field Label	Field Value
Test Name	Verify all the video player controls- play, pause, volume, mute etc. functions as they should	Type	MANUAL
Designer	alm12()	Creation Date	9/7/16
Execution Status	Passed	Subject	Youtube.

Description

1.7.1 Design Steps

Step Name	Description	Expected Result
Step 1	launch the browser	browser should be launched
Step 2	enter URL "https://www.youtube.com/"	youtube homepage should be viewed
Step 3	sign in with valid email address and password	sign in should be successfull
Step 4	click on the search box	typing should be enabled
Step 5	enter the keyword and click on search button or press enter	search should be completed and results should be listed
Step 6	click on the video wished to be viewed	video should be started
Step 7	click on stop video button	video should be stopped
Step 8	click on play video button	video should be played
Step 9	click on volume icon	video should be muted
Step 10	click on volume icon again	video should be unmuted
Step 11	bring the pointer on the volume icon	volume adjusting bar should be viewed
Step 12	click on the volume ball and drag it to wished location to turn up and down	volume should be turned up and down
Step 13	click on settings icon	video settings should be listed autoplay, annotations, play back speed and quality
Step 14	set the video settings from settings icon	video settings should be set succesfully
Step 15	click on the mini player icon	video window should be smallened and located on the right bottom corner of the page
Step 16	clcik on expand icon to get back to default size	video should be back to default size
Step 17	click on the theater mode	video size should be adjusted to theater mode size
Step 18	click on the theater mode icon again to get back to default size	video should be back to default size
Step 19	click on full screen icon	video should be viewed in full size
Step 20	click on exit full screen icon	video should be back to default size
Step 21	click on the video screen anywhere	video should be stopped or started
Step 22	click on the next icon	next video should be started

1.8 Test ID : 51 - Verify user can start and stop the video by clicking on the video play icon

Field Label	Field Value	Field Label	Field Value
Test Name	Verify user can start and stop the video by clicking on the video play icon	Type	MANUAL
Designer	alm12()	Creation Date	9/7/16
Execution Status	Passed	Subject	Youtube.

Description

1.8.1 Design Steps

Step Name	Description	Expected Result
Step 1	launch the browser	browser should be launched
Step 2	enter URL "https://www.youtube.com/"	youtube homepage should be viewed
Step 3	sign in with valid email address and password	sign in should be successfull
Step 4	click on the search box	typing should be enabled
Step 5	enter the keyword and click on search button or press enter	search should be completed and results should be listed
Step 6	click on the video wished to be viewed	video should be started
Step 7	click on stop video button	video should be stopped
Step 8	click on play video button	video should be played

1.9 Test ID : 50 - Verify that video page can be opened by direct link to a video

Field Label	Field Value	Field Label	Field Value
Test Name	Verify that video page can be opened by direct link to a video	Type	MANUAL
Designer	alm12()	Creation Date	9/7/16
Execution Status	Passed	Subject	Youtube.

Description

1.9.1 Design Steps

Step Name	Description	Expected Result
Step 1	click on the video link	youtube page should be viewed and video should be started

1.10 Test ID : 49 - verify user can search and view a video

Field Label	Field Value	Field Label	Field Value
Test Name	verify user can search and view a video	Type	MANUAL
Designer	alm12()	Creation Date	9/7/16
Execution Status	Passed	Subject	Youtube.

Description

1.10.1 Design Steps

Step Name	Description	Expected Result
Step 1	launch the browser	browser should be launched
Step 2	enter URL "https://www.youtube.com/"	youtube homepage should be viewed
Step 3	sign in with valid email address and password	sign in should be successfull
Step 4	click on the search box	typing should be enabled
Step 5	enter the keyword and click on search button or press enter	search should be completed and results should be listed
Step 6	click on the video wished to be viewed	video should be started

1.11 Test ID : 48 - Verify user can reply to the comments posted in their videos

Field Label	Field Value	Field Label	Field Value
Test Name	Verify user can reply to the comments posted in their videos	Type	MANUAL
Designer	alm12()	Creation Date	9/7/16
Execution Status	Passed	Subject	Youtube.

Description

1.11.1 Design Steps

Step Name	Description	Expected Result
Step 1	launch the browser	browser should be launched
Step 2	enter URL "https://www.youtube.com/"	youtube homepage should be viewed
Step 3	sign in with valid email address and password	sign in should be successfull

Step 4	click on user account photo	account details dropdown should be viewed
Step 5	click on youtube studio	youtube studio page should be viewed
Step 6	click on videos from the left column	videos page should be viewed and videos should be listed with commnets, likes, dislikes
Step 7	click on comments number for the specific video	all the comments should be viewed for that video
Step 8	select the comment wished to be replied and click on reply	reply message bow should be viewed and typing should be enabled
Step 9	enter the reply and click on reply	comment should be replied succesfully

1.12 Test ID : 47 - Verify user can view likes, dislikes and comments for their videos

Field Label	Field Value	Field Label	Field Value
Test Name	Verify user can view likes, dislikes and comments for their videos	Type	MANUAL
Designer	alm12()	Creation Date	9/7/16
Execution Status	Passed	Subject	Youtube.

Description

1.12.1   Design Steps

Step Name	Description	Expected Result
Step 1	launch the browser	browser should be launched
Step 2	enter URL "https://www.youtube.com/"	youtube homepage should be viewed
Step 3	sign in with valid email address and password	sign in should be successfull
Step 4	click on user account photo	account details dropdown should be viewed
Step 5	click on youtube studio	youtube studio page should be viewed
Step 6	click on videos from the left column	videos page should be viewed and videos should be listed with commnets, likes, dislikes

1.13 Test ID : 46 - Verify user can upload and publish multiple videos

Field Label	Field Value	Field Label	Field Value
Test Name	Verify user can upload and publish multiple videos	Type	MANUAL
Designer	alm12()	Creation Date	9/7/16

Execution Status	Passed	Subject	Youtube.

Description

1.13.1   Design Steps

Step Name	Description	Expected Result
Step 1	launch the browser	browser should be launched
Step 2	enter URL "https://www.youtube.com/"	youtube homepage should be viewed
Step 3	sign in with valid email address and password	sign in should be successfull
Step 4	click on create a video or post button	drop down options "upload a video" and "go live should" be viewed
Step 5	click on upload a video button	sign in page should be viewed
Step 6	tap on select file	file selection window should appear
Step 7	select the file	file should be selected, details page should be viewed and uploading should start
Step 8	enter required information	required information should be entered and next button should be enabled
Step 9	click on next	video elements page should be viewed
Step 10	select public, unlisted or private	public, unlisted or private should be selected
Step 11	click on publish	video should be published
Step 12	redo the steps 4 to 11 again to verify user can upload and publish multiple videos	multiple videos should be uploaded and published successfully

1.14 Test ID : 45 - verify user can only upload with allowed formats and size

Field Label	Field Value	Field Label	Field Value
Test Name	verify user can only upload with allowed formats and size	Type	MANUAL
Designer	alm12()	Creation Date	9/6/16
Execution Status	Passed	Subject	Youtube.

Description

Maximum size allowed is 128 GB
Alowed Format
.MOV
.MPEG4
.MP4
.AVI
.WMV
.MPEGPS

.FLV
3GPP
WebM
DNxHR
ProRes
CineForm
HEVC (h265)

1.14.1   Design Steps

Step Name	Description	Expected Result
Step 1	launch the browser	browser should be launched
Step 2	enter URL "https://www.youtube.com/"	youtube homepage should be viewed
Step 3	sign in with valid email address and password	sign in should be successfull
Step 4	click on create a video or post button	drop down options "upload a video" and "go live should" be viewed
Step 5	click on upload a video button	sign in page should be viewed
Step 6	tap on select file	file selection window should appear
Step 7	select the file from the listed formats .MOV .MPEG4 .MP4 .AVI .WMV .MPEGPS .FLV 3GPP WebM DNxHR ProRes CineForm HEVC (h265)	file should be accepted, uploading should start
Step 8	select the file other than the listed formats .MOV .MPEG4 .MP4 .AVI .WMV .MPEGPS .FLV 3GPP WebM DNxHR ProRes CineForm HEVC (h265)	file should not be accepted, Invalid file format error message should be seen
Step 9	select a video thats bigger than 128 GB	video should not be accepted

1.15 Test ID : 44 - verify user can schedule a time to publish the video and set as instant premiere

Field Label	Field Value	Field Label	Field Value
Test Name	verify user can schedule a time to publish the video and set as instant premiere	Type	MANUAL
Designer	alm12()	Creation Date	9/6/16
Execution Status	Passed	Subject	Youtube.

Description

1.15.1 Design Steps

Step Name	Description	Expected Result
Step 1	launch the browser	browser should be launched
Step 2	enter URL "https://www.youtube.com/"	youtube homepage should be viewed
Step 3	sign in with valid email address and password	sign in should be successfull
Step 4	click on create a video or post button	drop down options "upload a video" and "go live should" be viewed
Step 5	click on upload a video button	sign in page should be viewed
Step 6	tap on select file	file selection window should appear
Step 7	select the file	file should be selected, details page should be viewed and uploading should start
Step 8	enter required information	required information should be entered and next button should be enabled
Step 9	click on next	video elements page should be viewed
Step 10	click on next	visibility page should be seen
Step 11	select schedule	schedule details date, time, time zone and set as instant premierebox should be viewed
Step 12	enter date, time, time zone and select set as instant premiere	date, time, time zone shoud be entered and set as instant premiere should be selected
Step 13	click on schedule	video posting should be scheduled

1.16 Test ID : 42 - verify user can set video as instant premiere and learn more about set as instant premiere

Field Label	Field Value	Field Label	Field Value

Test Name	verify user can set video as instant premiere and learn more about set as instant premiere	Type	MANUAL
Designer	alm12()	Creation Date	9/6/16
Execution Status	Passed	Subject	Youtube.

Description

1.16.1 Design Steps

Step Name	Description	Expected Result
Step 1	launch the browser	browser should be launched
Step 2	enter URL "https://www.youtube.com/"	youtube homepage should be viewed
Step 3	sign in with valid email address and password	sign in should be successfull
Step 4	click on create a video or post button	drop down options "upload a video" and "go live should" be viewed
Step 5	click on upload a video button	sign in page should be viewed
Step 6	tap on select file	file selection window should appear
Step 7	select the file	file should be selected, details page should be viewed and uploading should start
Step 8	enter required information	required information should be entered and next button should be enabled
Step 9	click on next	video elements page should be viewed
Step 10	click on next	visibility page should be seen
Step 11	select public	public should be selected
Step 12	click on set as instant premiere	video should be set as instant premiere
Step 13	bring the pointer on the question mark next to set as instant premiere	learn more window should be viewed
Step 14	click on learn more	help center page about set as instant premiere should be viewed

1.17 Test ID : 41 - verify user can publish it now as public, private or unlisted

Field Label	Field Value	Field Label	Field Value
Test Name	verify user can publish it now as public, private or unlisted	Type	MANUAL
Designer	alm12()	Creation Date	12/31/19
Execution Status	Passed	Subject	Youtube.

Description

1.17.1   Design Steps

Step Name	Description	Expected Result
Step 1	launch the browser	browser should be launched
Step 2	enter URL "https://www.youtube.com/"	youtube homepage should be viewed
Step 3	sign in with valid email address and password	sign in should be successfull
Step 4	click on create a video or post button	drop down options "upload a video" and "go live should" be viewed
Step 5	click on upload a video button	sign in page should be viewed
Step 6	tap on select file	file selection window should appear
Step 7	select the file	file should be selected, details page should be viewed and uploading should start
Step 8	enter required information	required information should be entered and next button should be enabled
Step 9	click on next	video elements page should be viewed
Step 10	click on next	visibility page should be seen
Step 11	select public, unlisted or private	public, unlisted or private should be selected
Step 12	click on publish	video should be published

1.18 Test ID : 40 - verify user can add cards to promote related videos

Field Label	Field Value	Field Label	Field Value
Test Name	verify user can add cards to promote related videos	Type	MANUAL
Designer	alm12()	Creation Date	12/31/19
Execution Status	Passed	Subject	Youtube.

Description

1.18.1   Design Steps

Step Name	Description	Expected Result
Step 1	launch the browser	browser should be launched

Step 2	enter URL "https://www.youtube.com/"	youtube homepage should be viewed
Step 3	sign in with valid email address and password	sign in should be successfull
Step 4	click on create a video or post button	drop down options "upload a video" and "go live should" be viewed
Step 5	click on upload a video button	sign in page should be viewed
Step 6	tap on select file	file selection window should appear
Step 7	select the file	file should be selected, details page should be viewed and uploading should start
Step 8	enter required information	required information should be entered and next button should be enabled
Step 9	click on next	video elements page should be viewed
Step 10	click on add next to add cards	add card page should be viewed
Step 11	select the time where card needs to be created	time should be selected successfully
Step 12	click on add drop down	card types hould be viewed
Step 13	create the card	card should be created
Step 14	click on return to youtube studio	youtube studio page should be veiwed

1.19 Test ID : 39 - verify user cannot add an end screen for videos shorter than 25 seconds

Field Label	Field Value	Field Label	Field Value
Test Name	verify user cannot add an end screen for videos shorter than 25 seconds	Type	MANUAL
Designer	alm12()	Creation Date	12/31/19
Execution Status	Passed	Subject	Youtube.

Description

1.19.1   Design Steps

Step Name	Description	Expected Result
Step 1	launch the browser	browser should be launched
Step 2	enter URL "https://www.youtube.com/"	youtube homepage should be viewed
Step 3	sign in with valid email address and password	sign in should be successfull
Step 4	click on create a video or post button	drop down options "upload a video" and "go live should" be

		viewed
Step 5	click on upload a video button	sign in page should be viewed
Step 6	tap on select file	file selection window should appear
Step 7	select the file	file should be selected, details page should be viewed and uploading should start
Step 8	enter required information	required information should be entered and next button should be enabled
Step 9	click on next	video elements page should be viewed
Step 10	verify add an end screen is disabled for the video of shorter than 25 seconds	add an end screen should be disabled

1.20 Test ID : 38 - verify user can learn more about video elements

Field Label	Field Value	Field Label	Field Value
Test Name	verify user can learn more about video elements	Type	MANUAL
Designer	alm12()	Creation Date	12/31/19
Execution Status	Passed	Subject	Youtube.

Description

1.20.1 Design Steps

Step Name	Description	Expected Result
Step 1	launch the browser	browser should be launched
Step 2	enter URL "https://www.youtube.com/"	youtube homepage should be viewed
Step 3	sign in with valid email address and password	sign in should be successfull
Step 4	click on create a video or post button	drop down options "upload a video" and "go live should" be viewed
Step 5	click on upload a video button	sign in page should be viewed
Step 6	tap on select file	file selection window should appear
Step 7	select the file	file should be selected, details page should be viewed and uploading should start
Step 8	enter required information	required information should be entered and next button should be enabled
Step 9	click on next	video elements page should be viewed
Step 10	click on learn more	help center page about video elements should be veiwed

1.21 Test ID : 37 - verify user can view and copy the video link from the upload page

Field Label	Field Value	Field Label	Field Value
Test Name	verify user can view and copy the video link from the upload page	Type	MANUAL
Designer	alm12()	Creation Date	12/31/19
Execution Status	Passed	Subject	Youtube.

Description

1.21.1 Design Steps

Step Name	Description	Expected Result
Step 1	launch the browser	browser should be launched
Step 2	enter URL "https://www.youtube.com/"	youtube homepage should be viewed
Step 3	sign in with valid email address and password	sign in should be successfull
Step 4	click on create a video or post button	drop down options "upload a video" and "go live should" be viewed
Step 5	click on upload a video button	sign in page should be viewed
Step 6	tap on select file	file selection window should appear
Step 7	click on the link under the video	video should be started on youtube page
Step 8	clcik on copy link	link should be copied susccessfully

1.22 Test ID : 36 - verify user can preview the video before posting

Field Label	Field Value	Field Label	Field Value
Test Name	verify user can preview the video before posting	Type	MANUAL
Designer	alm12()	Creation Date	12/31/19
Execution Status	Passed	Subject	Youtube.

Description

1.22.1 Design Steps

Step Name	Description	Expected Result

Step 1	launch the browser	browser should be launched
Step 2	enter URL "https://www.youtube.com/"	youtube homepage should be viewed
Step 3	sign in with valid email address and password	sign in should be successfull
Step 4	click on create a video or post button	drop down options "upload a video" and "go live should" be viewed
Step 5	click on upload a video button	sign in page should be viewed
Step 6	tap on select file	file selection window should appear
Step 7	select the file	file should be selected, details page should be viewed and uploading should start
Step 8	click on start the video to preview	previewing should be done successfully

1.23 Test ID : 35 - verify user can select comment visibility and sort by

Field Label	Field Value	Field Label	Field Value
Test Name	verify user can select comment visibility and sort by	Type	MANUAL
Designer	alm12()	Creation Date	12/31/19
Execution Status	Passed	Subject	Youtube.

Description

1.23.1 Design Steps

Step Name	Description	Expected Result
Step 1	launch the browser	browser should be launched
Step 2	enter URL "https://www.youtube.com/"	youtube homepage should be viewed
Step 3	sign in with valid email address and password	sign in should be successfull
Step 4	click on create a video or post button	drop down options "upload a video" and "go live should" be viewed
Step 5	click on upload a video button	sign in page should be viewed
Step 6	tap on select file	file selection window should appear
Step 7	select the file	file should be selected, details page should be viewed and uploading should start
Step 8	click on comment visibility dropdown	comment visibility options should be listed
Step 9	select comment visibility option	comment visibility option should be selected

| Step 8 | click on sort by dropdown | sort by options should be listed |
| Step 9 | select sort by option | sort by option should be selected |

1.24 Test ID : 34 - verify user can select a category for the video

Field Label	Field Value	Field Label	Field Value
Test Name	verify user can select a category for the video	Type	MANUAL
Designer	alm12()	Creation Date	12/31/19
Execution Status	Passed	Subject	Youtube.

Description

1.24.1 Design Steps

Step Name	Description	Expected Result
Step 1	launch the browser	browser should be launched
Step 2	enter URL "https://www.youtube.com/"	youtube homepage should be viewed
Step 3	sign in with valid email address and password	sign in should be successfull
Step 4	click on create a video or post button	drop down options "upload a video" and "go live should" be viewed
Step 5	click on upload a video button	sign in page should be viewed
Step 6	tap on select file	file selection window should appear
Step 7	select the file	file should be selected, details page should be viewed and uploading should start
Step 8	click on category dropdown	category options should be listed
Step 9	select the category type	category should be selected

1.25 Test ID : 33 - verify user can allow embedding and publish to subscriptions feed and notify subscribers

Field Label	Field Value	Field Label	Field Value
Test Name	verify user can allow embedding and publish to subscriptions feed and notify subscribers	Type	MANUAL
Designer	alm12()	Creation Date	12/31/19
Execution Status	Passed	Subject	Youtube.

Description

1.25.1 Design Steps

Step Name	Description	Expected Result
Step 1	launch the browser	browser should be launched
Step 2	enter URL "https://www.youtube.com/"	youtube homepage should be viewed
Step 3	sign in with valid email address and password	sign in should be successfull
Step 4	click on create a video or post button	drop down options "upload a video" and "go live should" be viewed
Step 5	click on upload a video button	sign in page should be viewed
Step 6	tap on select file	file selection window should appear
Step 7	select the file	file should be selected, details page should be viewed and uploading should start
Step 8	click on allow embedding then click on publish to subscriptions feed and notify subscribers	allow embedding then click on publish to subscriptions feed and notify subscribers should be selected

1.26 Test ID : 32 - verify user can select license and distribution

Field Label	Field Value	Field Label	Field Value
Test Name	verify user can select license and distribution	Type	MANUAL
Designer	alm12()	Creation Date	12/31/19
Execution Status	Passed	Subject	Youtube.

Description

1.26.1 Design Steps

Step Name	Description	Expected Result
Step 1	launch the browser	browser should be launched
Step 2	enter URL "https://www.youtube.com/"	youtube homepage should be viewed
Step 3	sign in with valid email address and password	sign in should be successfull
Step 4	click on create a video or post button	drop down options "upload a video" and "go live should" be viewed
Step 5	click on upload a video button	sign in page should be viewed

Step 6	tap on select file	file selection window should appear
Step 7	select the file	file should be selected, details page should be viewed and uploading should start
Step 8	click on license and distribution dropdown	license and distrubition options should be listed
Step 9	select the license and distribution type	license and distribution should be selected

1.27 Test ID : 31 - verify user can select recording date and location

Field Label	Field Value	Field Label	Field Value
Test Name	verify user can select recording date and location	Type	MANUAL
Designer	alm12()	Creation Date	12/31/19
Execution Status	Passed	Subject	Youtube.

Description

1.27.1   Design Steps

Step Name	Description	Expected Result
Step 1	launch the browser	browser should be launched
Step 2	enter URL "https://www.youtube.com/"	youtube homepage should be viewed
Step 3	sign in with valid email address and password	sign in should be successfull
Step 4	click on create a video or post button	drop down options "upload a video" and "go live should" be viewed
Step 5	click on upload a video button	sign in page should be viewed
Step 6	tap on select file	file selection window should appear
Step 7	select the file	file should be selected, details page should be viewed and uploading should start
Step 8	click on recording date dropdown	calender should be viewed
Step 9	select the recording date	recording date should be selected
Step 10	click on video location	search box should be viewed
Step 11	enter video location	matching locations should be listed
Step 12	select the video location	video location should be selected

1.28 Test ID : 30 - verify user can learn more about caption certification

Field Label	Field Value	Field Label	Field Value
